

Mount Carmel, Utah.
July 6, 1948.

Mr. Ed. H. Watson, State Engineer,
Salt Lake City, Utah.

Dear Sir:

I have a copy of your letter to Roy Taylor, June 15, 1948, which you sent me to show me that you had asked to have a bond issued to me as Water Commissioner on the East Fork of the Virgin River. I expected him to send me an application form to be filled out for the bond. Thus far I have recieved no word from Roy Taylor.

Since June 13, I have been acting as water commissioner by the consent of the water users but without an official bond. Now I am selling out my land and home here and planning to move away from this locality therefore I will not be able to finish out the season as water commissioner on the East Fork of the Virgin River. I will notify the Central Committee of the water users here that I wish to resign and I will return Roy Taylor's bond application to him if I get one and not fill it out. I am giving the uncertain condition of my health as the reason for my decision to sell out and move to another locality.

Sincerely,

Birt Gardner
